Swix Racing Service

Wax Recommendation

Event

Holiday Classic 4.5/9km	Boyne Valley Lodge, Walloon Lake

Forecast

rain/snow mix on Christmas with anticipated below freezing temps plus an inch of new snow by Saturday morning and below freezing temps during the day.

PLEASE stay posted for updated Wax Report. Have the klister skis ready if we do not receive the

Structure

One pass with the new Swix Structure Tool T0403 with a .3mm V-Roller or if using a standard Swix Riller, use the .5 mm linear rill

Glide Wax

Base Prep: Clean skis with CH10 or BP99. Cool and brush with Fine Steel brush to open up ski base structure and clean. Iron in a layer of BP77 Moly. Cool and Brush.

Fast skis: LF8. Cool and Brush well with Swix Nylon Brush.

Kick Wax

Iron in the VG35 binder and cork smooth

Apply 2 coats of VR 45 and 1 coat of VR50. Apply VR55 under the foot if extra kick is needed.

* Christmas day rain will hopefully turn to snow Friday night. Have klister skis ready if we do NOT get the anticipated 1" of new snow.
