## Forbush Corner 17k Freestyle

Date: Sat, Feb 16, 2013

Time: 9:00 AM

Where: Forbush Corner, Frederic, MI

NOAA Forecast for Frederic, MI

**Overnight:** Snow showers with areas of blowing snow. Low around 15. Northwest wind 10 to 15 mph. Chance of precipitation is 80%. Total nighttime snow accumulation of around 2 inches.

**Friday:** Snow showers. High near 20. Northwest wind around 15 mph. Chance of precipitation is 100%. New snow accumulation of around 2 inches.

**Friday Night:** Snow showers, mainly before 1am. Low around 6. Northwest wind around 5 mph becoming calm after midnight. Chance of precipitation is 80%. New snow accumulation of around an inch possible.

**Saturday:** Snow showers likely. Cloudy, with a high near 17. Wind chill values as low as -4. Calm wind becoming northwest around 5 mph in the morning. Chance of precipitation is 60%.

Start time temperature forecast to be 3F. Humidity 100% with a good chance of snow.

**Skis:** I would pick a medium flex ski with a fairly soft tip and long contact zone. A cold base and a fine linear type grind would be good for the probable new snow and cold temps.

### **SOLDA GLIDE WAX:**

**Base:** Apply a layer of Solda Performance Green and then a layer of Solda F15 Green.

**Paraffin:** Solda F40 Green Special

**Powder:** With the new snow, cloudy weather and high humidity I would go with Solda HP06. Top coat of Powerjet 3 could help at the start.
