

WAX RECOMMENDATION

Meijer State Games of Michigan

Hanson Hills Classic

Hanson Hills, Grayling, MI

Sunday, February 1st, 2015

10:00 am 12Km 15 Sec Interval Start

http://www.hansonhills.org/uploads/2015Classic_Waiver.pdf

Forecast/Conditions: Overnight low of 3°F, temperature at start of 5°F. Expect new snow mixed with man-made snow. Expect mostly cloudy skies and blowing snow.

Glidewax: Apply LF Blue, scrape and brush, then apply HF Blue, sprinkle on X-cold Powder, iron in together, scrape and brush. Finish by crayoning JetStream Blue, iron hot (320F) with a layer of fiberlene under the iron, traveling slowly (20 seconds) tip to tail. Brush with a dedicated nylon polishing brush and polish with a thermopad.

Gripwax: Roughen base with 150 grit sandpaper, iron in Nordic Base Wax Green, cork smooth, let cool. Then apply 2 layers of Nordic GripWax Blue, corking between layers. Cover with 2 layer of Nordic GripWax X-Cold

Structure: A fine linear structure covered by one pass with the Blue Structurite tool (before JetStream application) will best suit these conditions.

Racing - Service

Check the WaxTip page at www.TokoUS.com before all of your races for the latest waxing information. The Toko Race Wax Tips offer racers precise waxing advice on how to make your skis perform optimally for a given event. For racers who don't have top end waxes, skip the Fluorocarbon (JetStream) and substitute the LF or NF wax of the same color (Yellow, Red or Blue). To see optimal application procedures for both Glidewax and Gripwax, go to www.TokoVideos.com.
