

Buying Guide: Pursuit Rollerskis

Thu, May 20, 2010 - By Mike Muha

Minnesota-based Pursuit Rollerskis are manufactured in the US. The shafts are custom extruded in Pennsylvania, then shipped to Minnesota for machining. Pursuit shafts come in two different alloys for different price/weight characteristics. Some shafts feature drilled out holes for lightness.

Pursuit currently makes six models of skating rollerskis. Wheels range from 100mm to 105mm in diameter, and five different speeds are offered. All rollerskis wheels use 608 2-RS bearings.

RollerSkiShop.com is the only retailer of Pursuit rollerskis. The shop also sells replacement wheels and bearings for Pursuit and other brands of rollerskis.

Below is a buying guide to Pursuit rollerskis, sorted by length.

Maker	Model	Type	Price	Wheel-base	Number of wheels	Wheel diameter	Wheel width	Wheel speed	Wheel material	Weight per pair	Fenders	Brakes / Speed Reducers	Ground clearance	Ratchets	Shaft	Notes
530 mm wheelbase skis																
Pursuit	T5302	Skate	\$159.99	530mm	2	100mm or 105mm	24mm	Five options	Rubber	1.43 kg (100mm wheels)	No	No	40 mm with 100 mm wheels	None	Light aluminum alloy	Lighter than the T5304 because of a higher grade / thinner alloy
										1.51 kg (105mm wheels)						
Pursuit	T5304	Skate	\$139.99	530mm	2	100mm or 105mm	24mm	Five options	Rubber	1.49 kg (100mm wheels)	No	No	40 mm with 100 mm wheels	None	Aluminum alloy	Good for youth due to shorter wheelbase of 530 mm.
										1.57 kg (105mm wheels)						

600 mm wheelbase skis

Pursuit	T6002	Skate	\$164.99	600mm	2	100mm or 105mm	24mm	Five options	Rubber	1.50 kg (100mm wheels)	No	No	40 mm with 100 mm wheels	None	Light aluminum alloy	Lighter than the T6004 because of a higher grade / thinner alloy
										1.58kg (105mm wheels)						
Pursuit	T6004	Skate	\$149.99	600mm	2	100mm or 105mm	24mm	Five options	Rubber	1.56 kg (100mm wheels)	No	No	40 mm with 100 mm wheels	None	Aluminum alloy	Lighter than the T6005 because the shaft has drilled out holes for lightness. Best value and great for most skiers.
										1.64 kg (105mm wheels)						
Pursuit	T6005	Skate	\$139.99	600mm	2	100mm or 105mm	24mm	Five options	Rubber	1.59 kg (100mm wheels)	No	No	40 mm with 100 mm wheels	None	Aluminum alloy	Our introductory model. Weighs a little more due to no side holes.
										1.67 kg (105mm wheels)						

610 mm wheelbase skis

Pursuit	T6101	Skate	\$209.99	610mm	2	105mm only	24mm	Five options	Rubber	1.77 kg	No	No	33.5 mm	None	Aluminum alloy	Pursuit's top model. Bolt on forks and drop down shaft design. Drilled out shaft holes for lightness (40 grams lighter than 2008 Marwe 610s).
